

New for 2010

The most recent addition to our list of amenities, A Free Fall is water fun for all age groups. At just under 10 feet tall it is great for the “big kids” while still safe enough for the “little kids.”

Our Three Season RV Park Opened the first week of May. The Park features 35 sites, all of them with full hook-ups. We do have a limited number of Sites still available.

We also added two new rental boats. The first one is a Family Fun Boat for Fishing and Skiing. This 18 foot Stratos Boat is powered by a 4 Stroke 150 Hp Yamaha motor and is a great way to spend the day on the water.

The second one is another Fishing Pontoon, this one is outfitted for the serious family fisherpeople. Powered by a 40 Hp Johnson Motor this 24 foot pontoon comes complete with trolling motor, GPS with lake chip, depth-finder and everything else that you would need to complete your fishing trip.
